Thoughts on Religious Life:

My ministries over the past years have included taking care of children at Holy Family Home, working in X-ray at our hospitals and ministering in pastoral care at our hospitals. The Sisters of St. Agnes were my teachers and mentors in the facilities where I worked. I am now in the autumn of my life. Why God called me has nothing to do with my worthiness, gifts and talents. Jubilee is a special time to reflect on the call to religious life and express gratitude for graces and blessings received.
