1975 Milwaukee County General Hospital School of Nursing – Diploma in Nursing • 2001 Viterbo University – Bachelor of Science Nursing • 2006 Edgewood College Master of Science Degree in Nursing

**WHAT DREW ME TO THE ASSOCIATE RELATIONSHIP**

I was drawn into the associate relationship because of an invitation that I received from Sister Florence Magnan. As an RN at Monroe Clinic in homecare, hospice and parish nursing I was very familiar with the mission and vision of the sponsored Monroe Clinic. I was also very active on the mission committee and so I was interested in learning about becoming an associate. It was one of my best decisions. I have been able to experience an increase in my own spirituality and that of the other associates. I look forward to our circle meetings and learning from one another. In addition, I also felt very supported by the Sisters and the other associates while taking care of my husband as his caregiver before he passed away in August.
