## STORIES FROM MINISTRY

I lived in a CSA local community in central city Milwaukee for 23 years. Each of us sisters served in a ministry daily and when home collaborated with our neighbors to address social issues affecting the area. Our local community was quickly accepted as authentic friend, with no other commitment than the good of others. The spirit of community spread among all in the neighborhood, evidenced by a significant bonding.

## A BLESSING TO SHARE

I have been blessed in many ways. For all these gifts I am ever grateful. The blessing I would like to share is gratitude. As I grow old my gratitude grows each day for the goodness around me and for the grace to be able to hold in my heart the suffering of others.

## HOW CSA CHARISM INSPIRES ME

To respond to others whose faith life or human dignity is threatened speaks to me as a reflection of the life and ministry of Jesus. As a follower of Jesus I am honored to participate still in some small ways in CSA's continuation of Jesus' life and work.
