STORIES FROM MINISTRY

Having been born into an immigrant family and community where welcome, love and support were the norm, my three major areas of ministry have been challenging but heartfelt responses: health care and leadership training among Miskito people in Nicaragua; health care for uninsured persons from many countries in Tucson, Arizona; health screening of asylum seekers from many countries in Tucson, Arizona.

WORDS OF ADVICE

Be open to be challenged and blessed by those served.

A BLESSING TO SHARE

I have been gifted by the strength, courage and wisdom of those willing to give all in service.

HOW CSA CHARISM INSPIRES ME

I desire to continue to support those whose faith life or human dignity is threatened.
